The contents page allows for easy navigation. Click on any text/page number to go to that page.

To go back to the contents page at any time, click in the bottom left corner.

Page numbers are displayed on every page for easy navigation.

DOWNLOADING & PRINTING YOUR PRINTABLE

Once your purchase is complete, click the "Download Files" button. Once download is complete, simply click on the actual download to open it.

Then all you need to do is print as you normally would on your computer or take it to a local printer shop to print.

Tips for printing:

For the best looking printables, use white card stock. If you don't have white card, normal white paper works just fine, although you may see writing on the other side.

PRINT SIZE: US LETTER & A4
